Projects

[Quick Stay \(Hotel Booking App\)](#) | [Live Demo](#) | [GitHub](#) | [React.js](#), [Tailwind CSS](#), [Clerk Auth](#), [React Router](#)

A responsive frontend hotel booking platform with secure Clerk authentication and role-based access for users, vendors, and admins.

- Built key pages like Home, My Bookings, Vendor Dashboard, and Admin View using React and Tailwind CSS.
- Used Tailwind UI components for forms, newsletters, footer, testimonials, and hotel booking interface.
- Implemented protected routes, dynamic hotel/room views, and contextual role-based rendering.
- Initiated backend integration for Stripe payments to support real-time bookings.

[Netflix Clone](#) | [Live Demo](#) | [GitHub](#) | [React.js](#), [Firebase](#), [Vite](#), [TMDB API](#), [CSS3](#)

Built a fully responsive Netflix-inspired web app with React.js and Firebase, featuring user authentication, dynamic UI, movie cards, and a trailer player page.

Implemented Firebase Authentication for secure user login and registration.

- Developed a dynamic Home Page showcasing popular, top picks, and upcoming movie sections with smooth scroll interactions.
- Designed a Player Page for streaming movie trailers with key movie details (title, release date, etc.).
- Ensured responsive design across devices, improving UX with CSS and React's state management.

[Nxt Trendz \(E-Commerce Clone\)](#) | [Live Demo](#) | [GitHub](#) | [React.js](#), [JavaScript](#), [CSS](#), [REST APIs](#), [JWT](#)

Created an e-commerce platform with product filters, sorting, and optimizing UI responsiveness across devices using React components.

- Implemented cart functionality, protected routes for product details, and user session persistence with JWT.
 - Enhanced UX with loading indicators, empty state views, and responsive design best practices.
